I. INTRODUCTION

1. Pursuant to the provisions of the High-level Meeting on ECDC held in Cairo in August 1986, the rules of procedure adopted at its first meeting held in Caracas in August 1987, the provisions of the 12th Annual Ministerial Meeting of the Group of 77 held in New York in 1988, the 7th Meeting of the Intergovernmental Follow-up and Coordination Committee on ECDC (IFCC-VII) held in Kuala Lumpur in July-August 1989, the First Annual Meeting of the Group of 77, held in New York in September 1989, the 8th Meeting of the Intergovernmental Follow-up and Coordination Committee on ECDC (IFCC-VIII), held in Panama City in August-September 1993, the 18th and 19th Annual Ministerial Meetings of the Group of 77, held in New York respectively in 1994 and 1995, the 9th Meeting of the Intergovernmental Follow-up and Coordination Committee on ECDC (IFCC-IX), held in Manila in February 1996, and the 20th to 35th Annual Ministerial Meetings of the Group of 77 held in New York respectively from 1996 to 2011, the Committee of Experts of the Perez-Guerrero Trust Fund (PGTF) for South-South Cooperation held its twenty-seventh meeting in New York from 24 to 27 July 2012.

2. The meeting was attended by four of the six members of the Committee, representing the three regions of the Group of 77. Dr. Eduardo Praselj was elected chairman of the Committee for the biennium 2012-2013. The list of participants appears in Annex I.

3. One representative of the Special Unit for South-South Cooperation of UNDP was invited to provide information on matters related to PGTF. Three representatives of the Treasury Division of UNDP were also invited by the Committee to provide information on matters related to the management of PGTF resources, including yield and structure of PGTF portfolio, as well as developments in the financial markets and investment strategies.

4. The Committee adopted the following substantive agenda:

1. Review of the operations of the PGTF;
2. Consideration of new project proposals;
3. Assessment of the implementation of approved projects;
4. Other matters.

5. The Committee had before it the following documents:

1. Twenty-three (23) project proposals;
2. Twenty (20) progress, terminal and financial reports;
3. Note by UNDP on the composition and yield of the PGTF portfolio;
4. Note by UNDP on the financial status of PGTF and the status of implementation of approved projects.

6. According to the information provided by UNDP, uncommitted resources available for 2012 allocations were US\$ 405,571, including projected interest earnings until 31 December 2012. In line with guideline A(p) for utilization of PGTF, the maximum support that could be given to any individual project would be one seventh of this total, i.e. US\$ 57,939.

II. REVIEW OF THE OPERATIONS OF PGTF

7. An executive summary of the main operational features regarding the performance of PGTF, including highlights of its operations, yield and expansion of its resources, associated costs and operational arrangements, and survey on the impact of PGTF, is presented below.

Highlights of twenty-five years of operation of PGTF (1986-2011)

8. In 1986, a High-level Meeting on ECDC held at Cairo agreed upon the main features for launching PGTF operations, including definition of the objectives of the Fund and criteria for project eligibility, as well as operational arrangements for the submission, appraisal and approval of project proposals.

9. The Trust Fund was established with an initial core capital of US\$5 million, which was increased to US\$ 6 million in 2004 by a US\$ 1 million contribution from a member country. According to guideline F(f) for its utilization, only interest accruing on the Fund could be used for project support so as to preserve intact the initial US\$5 million. This criterion has also been applied with regard to additional core resources.

10. From 1986 to 2011, 711 project proposals were submitted to PGTF and, in keeping with the guidelines for its utilization the Fund has provided support to 231 projects, with a total allocation of US\$11.6 million, i.e. respectively an annual average of 9 projects and US\$465,000.

11. With a view to increasing the multiplier effect of PGTF resources, guideline A(m) for utilization of PGTF establishes that project sponsors should secure contributions from other sources of an amount at least equal to the contribution requested from PGTF. Contributions from other sources for the 1986-2011 period amount to US\$ 22.7 million, i.e. US\$1.96 for each US\$ of PGTF resources.

12. Three priority areas have received around 70 percent of total support from PGTF, namely food and agriculture, technical cooperation, and trade. A breakdown of resources allocated by priority area is provided below:

<u>Area</u>	<u>Number of projects</u>	<u>Share of allocated resources (%)</u>
Food and agriculture	61	28

Energy.....	12	4
Health.....	12	3
Other (raw materials, finance).....	<u>5</u>	<u>2</u>
TOTAL	231	100

13. Approved projects have benefited a large number of developing countries as well as institutions and peoples within these countries. So far, 122 developing countries have been direct participants in and/or beneficiaries of PGTF-funded projects, while all member countries of the Group of 77 have been collective beneficiaries of PGTF-funded projects carried out by a large number of regional or interregional institutions and organizations of the South. Interregional and sub regional projects have received the largest support from PGTF as indicated in the breakdown below:

<u>Country coverage</u>	<u>Number of projects</u>	<u>Share of allocated resources (%)</u>

Sub regional projects.....	108	39
Regional projects.....	46	19

TOTAL	231	100

14. As of 27 July 2012, 88 percent, i.e. 204 out of the 231 approved projects have either been completed (156), are under implementation (36) or under preparation (12), as shown in the table below:

15. A large number of national, regional and international institutions of the South have implemented projects supported by PGTF. Implementing institutions include 93 national and 37 regional and international institutions, as detailed below. These figures do not include a large number of national institutions that have participated in and/or benefitted from the activities of PGTF-supported projects, but did not have the primary responsibility in their implementation

Yield of PGTF resources

16. The Committee reviewed with the representatives of the Treasury Division of UNDP the status of the PGTF portfolio and yield of PGTF resources, pursuant to the recommendations contained in paragraphs 20-23 of the report of the Committee at its ninth meeting in 1994.

17. Total PGTF resources are constituted by the core capital (US\$ 6 million) and unexpended resources. Pursuant to guideline F(f) for utilization of PGTF, the core capital should be preserved intact and only interest accrued and other earnings (i.e. additional contributions, reversion of allocated resources from approved projects that were not implemented) are invested by the UNDP in accordance with its financial rules and regulations, and the investment policy is discussed and agreed upon with the PGTF Committee of Experts. Accordingly, the portfolio is fully invested with total holdings on a par value basis of US\$ 6,885,885. The book value of the portfolio as of 30 June 2012 was US\$ 7,120,215, while the total marked to market value of the portfolio was US\$ 7,477,654.

18. The portfolio consists of twelve bonds totaling US\$6,675,000 (representing 96.9 percent of total holdings), while the rest of the portfolio is kept as liquidity in a money market fund (US\$ 210,885 representing 3.1 percent). Bonds maturities are staggered in a ladder structure: nine bonds have

maturities below five years, from 2012 to 2016 (US\$ 5,310,000 or 77.1 percent of total holdings), and three longer-term bonds mature from 2019 to 2022 (US\$ 1,365,000 or 19.8 percent).

19. Nominal yield of PGTF portfolio for 2012 is estimated at 4.29 percent per annum, but after adjusting for the purchase price of the securities, the effective yield would be 3.07 percent. Effective yields have been under 3.50 percent per annum for the last four years, mainly as a result of the decrease in interest rates, although partially offset by the investment strategy adopted for PGTF resources.

Year	2006	2007	2008	2009	2010	2011	2012
Effective yield (percentage)	4.20	4.69	4.09	3.38	3.02	3.23	3.07

Total disbursements made in 2011 by UNDP to beneficiaries of PGTF-funded projects totaled US\$ 575,253. From January to July 2012, these disbursements totaled US\$ 111,055 compared to US\$ 147,000 for the January-July 2011 period. This amount was paid by PGTF as inter-fund settlement to UNDP.

20. On the basis of PGTF portfolio as of 30 June 2012, the projected interest earnings for 2012 would be US\$ 213,238. The present structure of the portfolio is shown in the table below:

Security	Face value (US\$)	Maturity date	Coupon rate (%)	Buy price (% of face value)	Coupon payment (US\$)	Effective Rate (%)	Effective 2012 income (US\$)

Money market	210,885						
Total	6,885,885		4.29		295,222	3.07	213,238

21. Two bonds matured in November 2011 and January 2012. Part of the proceeds were utilized to meet disbursement obligations to approved projects and the remaining funds (US\$ 1,770,000) were reinvested in four bonds with maturities ranging from one to ten years earning an average yield of 1.70 percent.

22. Main recent developments in the financial markets include (a) The Euro-area financial situation is still dominant and tense, i.e. further ratings downgrades for several countries exacerbate credit problems, the European Central Bank lowers rates on Eurozone bank deposits to 0%, and negative markets are expected in the near future; (b) Near zero rates and high risk environment; (c) the global economic growth

is still weak, in particular China and United States economies are growing at low rates; and (d) Some predictions indicate a decades long global recovery time.

23. In light of the above, the investment strategy should take into account that a prolonged period of near zero interest rates is to be expected, and that the previous rationale of short duration for new investments is no longer valid.

24. Two (2) bonds in the amount of US\$ 1,075,000 will mature between September 2012 and June 2013 and the investment strategy for the next 12 months would be as follows:

- a) To reinvest the proceeds immediately after each maturity in five year bonds to maximize return;
- b) To keep a small cushion of cash to ensure sufficient liquidity and transfer the cash balances to higher yielding money market funds;
- c) To explore the attractiveness of increasing beyond 20 percent of the portfolio the share of securities with maturities exceeding five years (approval of the UNDP Investment Committee would be required);
- d) To explore investment opportunities in (i) eligible institutions having AA or A credit ratings, and (ii) investment-grade sovereign debts of developing countries, with a view to increasing income while maintaining a high credit rating;

25. Performance of the PGTF portfolio is being measured on a quarterly basis against a benchmark (i.e. the 5-year U.S. Treasury) since the beginning of 2007 and the PGTF portfolio has consistently outperformed the benchmark, as shown in the table below:

Year	Quarter	Benchmark (5 year Treasury)	PGTF
2007	1 st	4.64%	4.61%
	2 nd	4.76%	4.61%
	3 rd	4.51%	4.79%
	4 th	3.79%	4.78%
2008	1 st	2.75%	4.43%
	2 nd	3.15%	3.60%

	4 th	0.95%	3.16%
2012	1 st	0.89%	3.05%
	2 nd	0.78%	3.05%

26. While this investment strategy represents the best option under the circumstances, interest earnings would only be US\$ 213,238 for 2012. In addition, available resources for supporting projects in 2012 have been increased by some US\$ 192,333 coming from contributions by member countries (US\$ 60,425) and non-recurrent items (US\$ 131,908 due to cancellation of five approved projects that were not implemented and other adjustments). In summary, total availability for 2012 is US\$ 405,571 but 47% of this amount comes from non-recurrent items. A breakdown of the availability of funds since 1990 is as follows:

Year	Available resources (thousand US\$)
1990	1,218
1991	644
1992	900

Sustainability of PGTF activities

27. In light of the present situation and outlook of the financial markets, it is highly unlikely that interest rates will increase in the foreseeable future. Since the main source of funds for PGTF is the interest earned from its portfolio, prospects that this situation might continue represent a significant and negative impact not only on PGTF operations as such, but also a threat to its relevance and very sustainability.

28. PGTF has faced a similar situation in the past three years and, on the occasion of the past three Annual Ministerial meetings of the Group in September 2009, 2010 and 2011 appeals were made at the highest level to member countries to make an exceptional effort and consider making significant contributions to PGTF. The member countries of the Group responded to these appeals and 31 contributions were received totaling US\$ 266,900 (i.e. 12 in 2009, 11 in 2010 and 8 in 2011 totaling respectively US\$ 74,900, US\$ 89,800, and US\$ 102,200), which supplemented interest earnings from PGTF core capital.

29. While PGTF has undertaken a number of measures within its purview, aimed at maximizing to the extent possible the yield and multiplier effect of its resources, estimated interest earnings in the foreseeable future would be in the range of US\$ 210,000 to 230,000 per annum. This amount is insufficient to meet the growing needs for support of South-South cooperation (which are at least US\$ 500,000 per annum according to past experience) and strong support from member countries is required to bridge the present gap and provide time to identify and implement other solutions aimed at ensuring the long term sustainability of PGTF.

30. The Committee prepared a number of recommendations on initiatives to be carried out by the Chairman of the Group of 77, with the assistance of the Committee, aimed at providing political impetus and convey the needed sense of urgency in contacts to be made with potential sources of funding for PGTF. The Committee considers that these initiatives are critical in the circumstances and would significantly reinforce ongoing actions aimed at expanding PGTF resources, as described below.

Expansion of PGTF resources

31. The Committee reexamined practical ways of implementing its recommendations regarding the expansion of the PGTF resources as approved by the 20th Annual Ministerial Meeting of the Group of 77 in 1996. As identified in 1996, options available for expanding PGTF resources fall within one of the following three categories: (a) increase of the resources of PGTF; (b) increase of the yield of the PGTF portfolio; and (c) increase of the multiplier effect of PGTF resources through co-financing with other institutions.

(a) Increase of the resources of PGTF

32. This option consists of enlisting contributions from potential donors, which may include interested developing and developed countries as well as intergovernmental and non-governmental institutions and organizations.

33. Accumulated contributions received by PGTF up to 27 July 2012 amount to US\$ 1,858,768, distributed as follows:

<u>Contributors</u>	<u>Contributions (US\$)</u>	<u>%</u>
Member countries of the Group of 77	1,658,768	89
International institutions	<u>200,000</u>	<u>11</u>
TOTAL	1,858,768	100

A breakdown of these contributions is provided in the section below.

Contributions by member countries of the Group of 77

34. On the basis of the experience gained from 1996 to 2010 and taking into account the recommendations contained in the Havana Programme of Action adopted by the First South Summit in 2000, the Committee reiterated its recommendation to focus initially on seeking contributions from member countries, as a way of building evidence of commitment and support that would represent a powerful argument when approaching other donors, both countries and institutions.

35. The Committee welcomed eleven (11) new contributions made since the last meeting of the Committee (i.e. from August 2011 to July 2012) by ten (10) developing countries. These contributions totaled US\$ 123,425, as follows:

- 2011 (4) Algeria (US\$ 10,000 – 9th contribution)
Ecuador (US\$ 1,000)
Kuwait (US\$ 50,000 – 3rd contribution)
Trinidad and Tobago (US\$ 2,000 – 5th contribution)
- 2012 (7) Afghanistan (US\$ 1,000)
Algeria (US\$ 10,000 – 10th contribution)
Argentina (US\$ 15,000 – 2nd contribution)
Brunei Darussalam (US\$ 2,000)
Peru (US\$ 20,000 – 2nd contribution)
South Africa (US\$ 7,425 – 10th contribution)
Uruguay (US\$ 5,000 – 3rd contribution)

36. The Committee also noted the previous ninety-three (93) contributions made by thirty-four (34) developing countries up to 31 July 2011, namely:

- 1997 (1) Mauritius (US\$ 500);
- 1998 (2) Pakistan (US\$ 1,000), and Singapore (US\$ 2,000);
- 1999 (8) Islamic Republic of Iran (US\$ 3,000), Democratic People's Republic of Korea (US\$ 2,000), Cyprus (US\$ 2,000), Thailand (US\$ 2,000), Malaysia (US\$ 2,000), Algeria (US\$ 2,000), India (US\$ 2,000), and Philippines (US\$ 1,500);

- 2000 (3) China (US\$ 2,000), Democratic People's Republic of Korea (US\$ 2,000 – 2nd contribution), and Peru (US\$ 2,000);
- 2001 (4) Egypt (US\$ 2,000), Democratic People's Republic of Korea (US\$ 2,000 – 3rd contribution), South Africa (US\$ 3,000), and Singapore (US\$ 2,000 – 2nd contribution);

37. In summary, PGTF has received one-hundred-four (104) contributions from thirty-seven (37) developing countries up to 27 July 2012. Total contributions paid amount to US\$1,658,768, including the first contribution (US\$ 1 million) to its core capital made by Venezuela. A breakdown of the contributions by size is presented below:

	<u>Number of countries</u>	<u>Number of contributions</u>	<u>Total Contributed (US\$)</u>	<u>Average contribution (US\$)</u>
Smaller contributions (up to US\$ 5,000)	35	66	186,171	2,820

TOTAL	37(*)	104	1,658,768	

(*) Ten countries have made both smaller and larger contributions

38. The Committee also noted with satisfaction that twenty-two (22) developing countries, namely Algeria and South Africa (ten separate contributions each); Venezuela (eight contributions); Democratic People's Republic of Korea (seven contributions); China (six contributions), Trinidad and Tobago (five contributions); Islamic Republic of Iran and Singapore (four contributions each); Antigua and Barbuda, Cyprus, Egypt, Kuwait, Qatar, Thailand and Uruguay (three contributions each); Argentina, Brazil, Cameroon, Indonesia, Pakistan, Peru and Philippines (two contributions each) have made multiple contributions to PGTF and invited other countries to follow this encouraging initiative.

39. As indicated in paragraphs 15-20 of the report of the special meeting held in June 2003, the Committee recommended two mutually supportive approaches to enlist contributions from member countries of the Group of 77, namely (i) to continue requesting smaller contributions (i.e. a notional amount of US\$2,000) from all member countries as a sign of the commitment of the largest possible number; and (ii) to request larger contributions from member countries in a position to contribute.

40. The Doha Plan of Action, adopted by the Second South Summit, held in Doha from 12 to 16 June 2005 welcomed the progress made so far by PGTF in support of South-South cooperation and called upon member countries, as well as the United Nations system to support the expansion of PGTF resources through regular contributions

Contributions by non-governmental national institutions

41. The Committee was informed that several non-governmental national institutions were interested in making contributions to PGTF resources. In this regard the Committee indicated that these contributions are welcomed, will be identified as a separate category and contributors will be given proper recognition in all PGTF information and releases regarding contributions.

42. Furthermore, the Committee was of the view that these contributions might represent an initial step towards a broader working relationship with non-governmental institutions.

Contributions by international institutions

43. Consultations have been held with a number of international institutions with a view to exploring their interest in either making contributions to PGTF resources or co-financing projects with PGTF. The experience so far indicates that a flexible and practical approach should be adopted in order to find common grounds for undertaking joint activities from the point of view of both areas of interest or priority and working procedures.

44. In late 2006, a Grant Agreement was signed by the International Fund for Agricultural Development (IFAD) and PGTF, providing for a contribution of US\$ 200,000 over a two (2) year period, to be disbursed in two installments of US\$100,000 each. As a result, six (6) projects have been

supported (cf. INT/08/K02, INT/08/K05 and INT/08/K09 in 2007 and INT/10/K01, INT/10/K02 and INT/10/K11 in 2009).

45. The Committee wished to commend again IFAD for its contribution and the support provided by IFAD to South-South cooperation activities carried out jointly with PGTF. The Committee considers that the IFAD-PGTF Grant Agreement represents an excellent pilot experience that could be expanded and extended, and replicated with other international institutions.

Impact of contributions to PGTF resources

46. In light of the sizeable reduction in interest rates in recent years, contributions have become critical in supplementing interest earnings and thus partially preserving the responsiveness of PGTF to the growing needs for supporting South-South cooperation. As indicated in the table below, in 2007, 2008, 2009, 2010, 2011 and 2012 (up to 27 July 2012) contributions respectively increased by 73, 42, 116, 78, 76 and 57 percent the resources provided by interest earnings of the initial core capital.

47. Impact of contributions on PGTF resources since 2007 has been as follows:

<u>Impact of new contributions</u>	<u>2007</u>	<u>2008</u>	<u>2009</u>	<u>2010</u>	<u>2011</u>	<u>2012</u>

(b) Increase of the yield of the PGTF portfolio

48. Investment strategies have aimed at taking advantage of prevailing market conditions at any given moment, bearing in mind that preservation of PGTF core resources should be the paramount consideration when exploring investment options. In 2003, following a request by the Committee of Experts, the UNDP Investment Committee approved that up to 20 percent of PGTF portfolio could be invested in securities issued by supranational and government agencies with up to ten year maturities so as to increase returns. As a result, 19.8 percent of PGTF portfolio is currently invested in three securities with maturities between seven and ten years, with a view to securing higher yields as compared to shorter term investments.

(c) Increase of the multiplier effect of PGTF resources through co-financing with other institutions

49. Since the launching of PGTF operations in 1986, the impact of PGTF-funded projects has been increased by the mobilization of resources from other sources, which up to 2011 totaled US\$ 22.7 million,

i.e. some US\$1.96 for every US\$1 of PGTF contributions. As illustrated in the table below, numerous regional and interregional institutions have co-financed multiple projects with PGTF, which is an indication that this scheme has brought about mutually satisfactory results.

Co-financing regional and international institution	Number of projects co-financed	Contribution by co-financing institution (US\$)	PGTF contribution (US\$)
Latin American Economic System (SELA)	7	1,132,000	376,000
International Center for Small Hydropower (IC-SHP)	8	801,000	384,000
Latin American Integration Association (ALADI)	4	710,000	225,000
Mercosur Economic Research Network (MercoNet)	5	562,000	132,000
Islamic Chamber of Commerce and Industry (ICCI)	7	504,700	215,000
Third World Network (TWN)	2	323,000	180,000
Caribbean Council of Science and Technology (CCST)	5	184,500	150,000
International Cooperative Alliance (American Regional Bureau)	2	164,000	126,500
Inter Press Service (IPS)	3	159,600	235,800
United Nations Industrial Development Organization (UNIDO)	2	148,000	87,000
NAM Science & Technology Center	2	71,000	67,000

50. The Committee recommended continuing consultations with these institutions, as well as with other institutions interested in co-financing projects with the PGTF, with a view to identifying further opportunities for enhancing the multiplier effect of PGTF resources.

51. In addition to the case-by-case approach established in guideline A(m) for utilization of PGTF, which requires that all proposals submitted to PGTF should include inputs from other sources of an amount at least equal to the resources requested from PGTF, efforts have been made to achieve structured agreements with some institutions, aimed at providing more continuity and predictability to co-financing activities. However, past experience has proven that established priorities, legal and financial regulations, and working procedures of many institutions render it difficult to go beyond the case-by-case approach.

Operating arrangements

52. The Committee examined the operating arrangements of PGTF and agreed to focus on dissemination of information on PGTF and follow up of the implementation of approved projects.

53. In this regard, the Committee recommended at its twenty-fourth meeting in 2009 to expand the information available in the PGTF section of the website of the Group of 77 (www.g77.org), including in particular the translations of the summaries of completed projects already posted on the website into the working languages of the Group, as a means of facilitating access to the information contained in the full texts of the final reports, posted in their original languages. So far, 126 final reports in their original languages have been posted in the website.

54. The Committee was informed that the translation process of the summaries has already been launched and that in the near future they will be posted in the website of the Group of 77.

55. In cooperation with the Office of the Chairman of the Group of 77, PGTF has undertaken the preparation of a special issue of the “*The Collected Documents of the Group of 77*” series, containing documentation as well as analytical and statistical information on PGTF activities and performance. Collection of information is underway and the final manuscript will be delivered to the publisher in mid-December 2012. It is estimated that the special issue will be published in the first quarter of 2013.

56. Finally, PGTF was present at the 2011 Global South-South Development Expo held at FAO headquarters in Rome from 5 to 9 December 2011. PGTF has been invited to participate in two exhibitions to be held in 2012: (a) an exhibition organized by the Group of 77 at the UN headquarters in New York in September 2012 on the occasion of the United Nations Day for South-South Cooperation and (b) the 2012 Global South-South Development Expo, to be hosted by UNIDO in Vienna from 19 to 23 November 2012.

57. Both exhibitions provide opportunities to present the results of selected projects funded by PGTF, as concrete examples of the impact and potential of PGTF in supporting South-South cooperation. The Committee recommended that the salient features of PGTF performance, as a success story in South-South cooperation, be highlighted including its responsiveness and cost-effectiveness, the significant impact of projects funded albeit being of a small size, and the fact that in light of the decline in interest rates support from governments is critical in compensating the loss in interest earnings and preserving the operating capability of PGTF.

Survey of the impact of PGTF

58. On the basis of the recommendation of the Committee at its twelfth meeting in 1997, a survey on the impact and benefits of the projects funded by PGTF was initiated in 1998, with a view to supporting the promotion of the Fund. To date the Office of the Chairman has received information on 106 of the 156 PGTF-supported projects that have been completed. A summary of the results of the survey is presented in Annex III of this report.

(*) The budget submitted does not indicate the source of funding for this item

83. The Committee noted that the contribution from other sources amounts to US\$ 23,440 and, according to the provisions of guideline A(m) for utilization of PGTF, which establishes that all project proposals submitted to PGTF should include inputs from other sources of an amount at least equal to the resources requested from PGTF, the maximum support that could be given to this project would be US\$ 23,440. In the supporting documentation, the submitting institution indicated that the project could not be implemented if the allocation by PGTF were less than the requested resources.

84. In light of the above, the Committee concluded that it was not possible to provide a meaningful support to this project and recommended that this proposal should not avail from the financial of PGTF.

86. The main producing countries of fine natural hair of South American camelids are Peru (Alpacas and Vicunas), Bolivia (Llamas) and Argentina (Guanacos). Exports consist mainly of tops, yarn and fabrics while higher value-added exports (i.e. garments, accessories and other) are less developed. In addition, the regional market of camelids fine hair has a low quality culture, lacks internationally accepted standards, production and commercial competences are limited, and there are very low levels of innovation and penetration of finished goods in competitive markets.

87. According to the text of the proposal, the project aims at (a) promoting and/or implementing international standards for fine natural hair of South American camelids at the International Wool Textile Organization (IWTO), a worldwide reference organization for the textile sector; and (b) strengthening laboratory good practices as well as competences of Andean breeders through information exchange and transfer of knowledge on the importance of carrying out commercial transactions within the framework of national and international technical standards.

Project proposal No. 15 – *Improvement of post-harvest techniques for fruit flies control*

129. The Ministry of Agriculture of Sudan submitted directly the proposal. No other participating countries are identified in the proposal.

130. Sudan has a big potential in mango production for an extended period during the year, and could become a leading exporter of high-quality chemicals-free fruit to Arab and European markets. However, infections of fruit flies hamper mango production and exports and most Middle Eastern countries have ceased to import mangoes from Sudan.

131. According to the text of the proposal, the project aims at improving post-harvest handling of mangoes by introducing hot water treatment devices suitable to the Sudanese situation. To this end, the project includes (a) introduction of devices for hot water treatment; (b) characterization of the different mango cultivars to adjust treatment temperatures with different mango sizes; (c) training programmes in mango standards, operation and management of the hot water devices, and fruit flies types and symptoms; (d) workshops and seminars to build awareness on fruit flies infection and control among producers and exporters.

Project proposal No. 17 – *Decontamination of distillery slops by microbial protein propagation*

139. The Cuban Institute for Research on Sugarcane by-Products (ICICDA), based in Havana, Cuba, submitted the proposal through the Permanent Mission of Cuba to the United Nations. Other participating countries would be Brazil and Nicaragua.

140. In a number of developing countries, the prevailing level of fossil fuels prices has encouraged the production of sugarcane-based ethanol as an attractive alternative to fossil fuels. However, one of the main drawbacks in ethanol production is the production of distillery slops when the main product is distilled, and every sugarcane ethanol-producing country is struggling with slops treatment. In this regard, microbial protein propagation has been recently proposed in light of the bio-ethanol production explosion, and as a way of converting a polluting waste into a highly demanded commodity protein.

141. According to the text of the proposal, the main objective of the project is to provide procedures for a significant reduction of the organic load (i.e. polluting potential) of distillery slops by the simultaneous production of microbial biomass protein for animal feeding.

142. Total cost of the project, to be carried out in twenty-four (24) months, is estimated at US\$ 122,000 and the contribution sought from PGTF amounts to US\$ 34,000. A breakdown of the total cost is as follows:

Item	Total contribution (US\$)		
	PGTF	Other	Total
Project management	16,000	32,800	48,800

Other	0	9,180	9,180
Total	34,000	88,000	122,000

143. The Committee noted that this project was submitted and approved in 2008 (cf. project INT/09/K07), was cancelled because it was implemented by the established deadline of 31 December 2011 and allocated funds reverted to PGTF. The Committee was informed that the delay in launching the implementation was beyond the control of the implementing institution and agreed to consider the resubmitted proposal.

144. The Committee considered that this resubmitted proposal complies in general with the guidelines for utilization of PGTF. The Committee therefore recommended that this proposal avail from the financing of PGTF and that US\$ 32,000 be allocated to this end. This contribution should be disbursed in two tranches.

Project proposal No. 18- Evaluation of synthetic and recombinant variants of antimicrobial peptides from marine invertebrates as a source for potential antibiotics

145. The Center for Pharmaceuticals Research and Development (CIDEM), based in Havana, Cuba, submitted the proposal through the Permanent Mission of Cuba to the United Nations. Other participating countries would be Ecuador and Mexico.

146. A lack of new antibiotics for treatment of infection diseases, together with the appearance and persistence of multidrug-resistant bacterial strains, require that new antimicrobial strategies be developed and explored. In this regard, the primary innate immune response in marine invertebrates is a robust self-defense system against invading microorganisms, warranting their survival in wild environments. In addition to the potential of new and/or more efficient interactions regarding direct killing or neutralizing

pathogens, the interplay between immunogenicity, danger signaling and the immune modulation of marine invertebrate antimicrobial peptides (AMPs) could act in synergy with the immunity normally offered by mammalian AMP alone.

147. According to the text of the proposal, the objective of the project is the characterization of synthetic and recombinant variants of defensin-like peptides and crustins in order to study the synergic effect with traditional antibiotics used in the clinic.

148. Total cost of the project, to be implemented in twenty-four (24) months, is estimated at US\$ 90,000 and the contribution requested from PGTF amounts to US\$ 40,000. A breakdown of the total cost is provided in the table below:

Item	Total contribution (US\$)		
	PGTF	Other	Total
Personnel	0	(*)	(*)
Travel	15,000	(*)	(*)
Equipment	23,000	(*)	(*)
Other	2,000	(*)	(*)
Total	40,000	50,000	90,000

(*) No breakdown was provided in the supporting documentation

149. The Committee considered that it was not possible to ascertain the cooperative component of the project, as required by guideline A(f) for utilization of PGTF resources, which establishes that written evidence of endorsement or declared interest should be part of the proposal. In the supporting documentation, apart from the submitting country there is only one letter of endorsement and therefore the required minimum number of three participating countries is not fulfilled.

150. The proposal is not eligible for funding and the Committee recommended that it should not avail from the financing of PGTF.

Project proposal No. 19- Small-scale demonstration project on solar energy technology and products in Kenya and Malta

151. The Gansu Natural Energy Research Institute, based in Lanzhou, China submitted the proposal through the Permanent Mission of China to the United Nations. Other participating countries would be Kenya and Malta.

According to the text of the proposal, the objectives of the project are (a) to speed up research and development of solar energy in Kenya and Malta; (b) to popularize the application of solar technologies and products ; (c) to improve the ecological environment and the energy structure; and (d) to enhance the level of people’s life in Kenya and Malta. To this end, the project involves technical visits, identification of the appropriate small-scale solar photovoltaic and solar heating systems, installation of a number of solar cookers, large-scale solar water heating systems and solar photovoltaic systems, and organization of a closing international forum in China with the participants to gather the results of the project.

153. Total cost of the project, to be implemented in twenty-four (24) months, is estimated at US\$435,000 and the contribution requested from PGTF amounts to US\$35,000. A breakdown of the total cost is provided below:

Item	Total contribution (US\$)

Other	2000	(*)	(*)
Total	35,000	400,000	440,000

(*) No breakdown was provided in the supporting documentation

154. The Committee noted that this proposal was submitted last year (cf. proposal No.12 – paragraphs 118 to 122 of the Report of the Committee at its 26th meeting in 2011). On that occasion the Committee: “..... Recalled guidelines A(a) and A(g), which establish that projects to be eligible should have a minimum of three participating developing countries. This proposal involves only two developing countries, and since the condition of minimum number of participants is not fulfilled, the project could not be considered for support from PGTF resources”.

155. Since the condition of minimum number of participants is still not fulfilled in the proposal as resubmitted, the project is not eligible for support. The Committee therefore recommended that this proposal should not avail from the financing of PGTF.

156. The International Center on Small Hydropower (ICSHP), based in Hangzhou, China submitted the proposal through the Permanent Mission of China to the United Nations. Other participating countries would be Colombia and India or Sri Lanka.

157. Small hydropower (SHP) is a potentially clean and environmentally friendly form of renewable energy which contributes significantly to poverty alleviation and economic drive, particularly in rural areas in developing countries. The future trend of global SHP development will emphasize on but not limit to refurbishment of existing hydraulic facilities and infrastructure, including reservoirs, dams, water supplying, diversion systems and even irrigation systems. By this approach, existing even abandoned hydro facilities can be upgraded and renovated into new integrated project of multipurpose facilities, including power generation, water supply as well as agricultural irrigation, and improved efficiency with a comparatively lower cost. This modality can particularly meet the demand of rural SHP development in developing countries of Asia and South America.

158. According to the text of the proposal, the project aims at helping demonstrate and promote integrated multipurpose small hydropower projects with functions of power generation, water supply and agricultural irrigation in rural areas of participating countries. To this end, the project involves (a) reconnaissance and site selection for demonstration projects; (b) feasibility studies and design reports for construction of the potential selected sites; (c) organization of two regional seminars for promoting the project; and (d) startup of demonstration projects.

159. Total cost of the project, to be implemented in twelve (12) months, is estimated at US\$ 123,000 and the contribution requested from PGTF amounts to US\$ 35,000. A breakdown of the total cost is as follows:

165. The Hangzhou Regional Center (Asia-Pacific) for Small Hydropower (SH), based in Hangzhou, China submitted the proposal through the Permanent Mission of China to the United Nations. Other participating countries would be Cambodia, Indonesia, Lao People’s Democratic Republic, Thailand and Viet Nam.

166. Most of the ASEAN (Association of Southeast Asian Nations) member countries are now facing and constrained by deficiency of electrical power, and local residents in remote regions are enduring blackouts and darkness in their living environments. Small hydropower (SHP), as a proven and environmentally sound energy, represents one of the best approaches for addressing this problem.

167. According to the text of the proposal, a training course will be held in Indonesia to present the role of SHP in sustainable development of rural areas, as well as SHP planning, design, equipment selection, and operating and administrative experience, with a view to improving SHP design, construction, operational and management capability of the SHP technical and managerial personnel in ASEAN member countries. In addition to the participants from Indonesia, the training course will be attended by some 20 participants from the four other ASEAN countries involved in the project. It is expected that participants will be able to apply the knowledge gained during the training and, at the same time, transfer the knowledge to other people in their respective countries.

168. Total cost of the project, to be implemented in four (4) months, is estimated at US\$70,000 and the contribution requested from PGTF amounts to US\$ 35,000. A breakdown of the total cost is presented in the table below:

173. The Committee considered that this proposal complies in general with the guidelines for utilization of PGTF. The Committee therefore recommended that this proposal avail from the financing of PGTF and that US\$ 33,000 be allocated to this end. This contribution should be disbursed in one single tranche.

Project INT/00/K08 – “Support to the Committee of Experts – Phase III”

174. Project INT/00/K08 provides support to the work of the Committee of Experts. Allocations of US\$ 30,000 in 2007, US\$ 40,000 in 2008, and US\$ 35,000 in 2009 were approved with a view to providing the resources to hold up to a maximum of two meetings of the Committee per year, as established in guideline B(i) for utilization of PGTF resources. This allocation was based on actual costs of the meetings of the Committee, which averaged US\$ 15,000 per meeting from 1998 to 2005, but increased to US\$ 18,000 in 2006, US\$ 20,000 in 2007 and US\$ 22,500 in 2008. In 2009 the cost per meeting was also US\$ 22,500 and in 2010 it increased to US\$ 25,000. In 2011, the estimated cost per meeting would be reduced to US\$ 22,000 because only four of the six members would come from their capitals, but the cost would increase to US\$ 25,000 in 2012 as a fifth member would come from his capital.

175. In light of the very limited resources available, in 2009 the Committee recommended that the allocation be reduced from two to one meeting per year and this practice has been followed in subsequent years. As a result, no further allocation was made to the budget of project INT/00/K08 for 2010 and the balance of funds in the project was utilized to cover costs for that year.

176. In 2010 and 2011, the Committee recommended allocating respectively US\$ 30,000 and US\$ 22,000 to cover the cost of one meeting each year, as well as the funds needed for dissemination and resource mobilization activities.

177. Taking into account that the estimated cost for holding one meeting in 2013 amounts to US\$ 25,000 and that some US\$ 10,000 would be required for dissemination and resource mobilization activities, the Committee recommended making a budget increase of project INT/00/K08 and allocating US\$ 20,000 to cover expenses in 2013. The difference between this allocation and estimated costs (US\$ 35,000) will be funded from the unexpended balance of the 2010 allocation (US\$ 5,000) and the estimated balance of funds in the project at the end of 2012.

SUMMARY OF PROJECT PROPOSALS RECOMMENDED FOR ADOPTION

178. In summary, the Committee recommended that the following twelve (12) new project proposals plus a budget increase for an existing project avail from the financing of PGTF and resources allocated to this end amount to US\$ 405,400. A breakdown of this total is provided below:

	TOTAL	405,400

179. According to the information provided by UNDP, uncommitted resources in 2012 amount to approximately US\$ 405,571, including the projected interest earnings from 1 January to 31 December 2012. These uncommitted resources are the difference between total assets as of 24 July 2012 (US\$ 7,359,906) and the core capital (US\$ 6,000,000) and liabilities, which consist of the reserve for commitments to approved projects (US\$ 954,335). A detailed breakdown of the financial status of PGTF is provided in Annex IV.

180. Total resources requested by the eligible proposals recommended for adoption in the table above are US\$ 429,650. Since this amount is close to the resources available (i.e. US\$ 405,571), the Committee was able to meet an average of 94% of the requests. In accordance with the provisions of guideline B(b) for utilization of PGTF, the allocation of resources to these projects was made on the basis of priorities derived from the specific merits of the proposals, country and regional coverage, and equitable geographical distribution.

181. The Committee stressed that, in addition to meeting 94% of the requests for support, the reserve for commitments to approved projects, which was reduced in 2011 from 100% to 97% coverage, was restored to 100% coverage in 2012 (i.e. US\$ 954,335).

182. However, due to the present low level of interest earnings and the prospects that this situation might prevail in the foreseeable future, PGTF is still facing an emergency situation that may not only undermine its capacity to meaningfully support South-South cooperation but may even threaten its own sustainability. The Committee wished to stress that immediate assistance by the members of the Group of 77 to supplement interest earnings continues to be needed to enable PGTF to successfully overcome the present difficult circumstances.

IV. ASSESSMENT OF THE IMPLEMENTATION OF APPROVED PROJECTS

208. The Office of the Chairman observed that in the project document the contribution of other sources had been reduced to US\$ 15,000 from the original US\$ 25,000, and therefore it would be lower than the amount allocated from PGTF resources. Since this does not comply with the guidelines, the Office requested the UNDP to revise the document with the sub-contractor so as to ensure compliance. The sub-contractor submitted several revisions but there were still some inconsistencies that need to be solved before reauthorizing disbursement of funds.

216. On 25 June 2012 the country office informed that the project had been non-responsive for almost two years and that the cooperation agreement, which took almost a year to be signed, was once again not valid. Since it seems unlikely that implementation of the project would be resumed, the Committee recommended to terminate the project by 31 December 2012 and to notify the sub-contractor accordingly.
